Food DONATIONS

FOR THE RAPTORS

FOOD ITEMS ACCEPTED

As carnivores, birds of prey, or raptors, require a diet of animals. In an effort to provide our patients and resident raptors with a healthy diet we have set certain nutritional standards. To meet these standards we have become very specific on the food items that we can use. We currently accept the following items:

- fresh or frozen game meats such as deer, elk, and antelope **Must not** have been killed with lead shot, or be from areas where any type of poisoning has occurred. Items frozen more than 2 years are not usable.
- fresh or frozen game birds such as quail, pheasant, duck or goose. Birds **must not** have been killed with lead shot, or be from areas where any type of poisoning has occurred. Items frozen more than 2 years are not usable.
- fresh, frozen or live domestic animals such as rabbits, rats, or mice. Animals **must not** have been killed with lead shot or be from areas where any type of poisoning has occurred.
- **Large carcasses will not be accepted.**
- **We do not use domestic meats such as beef, pork and lamb or meat from carnivores such as coyote or bear. We cannot use any meat which has been ground, tenderized, seasoned or cooked.**

**For more information please call our
Raptor Center at (719) 549-2327.**
