Our Vision

We envision thriving urban, rural, and wildlife ecosystems in Southern Colorado that foster a resilient connection between people and planet.

Core Values

Equitable access to nature experiences

Connect with community

Preserve and restore nature

Collaborate with partners

Inspire future generations

Encourage learning

Program Philosophy

Our primary goal at NWDC is to create an atmosphere in which each camper and staff member builds care and love for nature and themselves while learning something new about wildlife rehabilitation and outdoor recreation. We want campers and staff to return to NWDC year after year to achieve this goal, as well as other goals relating to a child's growth and development. It is most important to point all efforts at camp toward creating a safe, enjoyable, challenging, educational, and fun experience. This experience should be filled with opportunities for everyone.

Research shows that children who spend time in nature pay attention better, think more clearly, and can cope more effectively with stress. We aim to foster a sense of wonder, to guide rather than compel, and to provide room for possibility rather than attempt to constrain camper's interests to fit within a certain curriculum. Our goal is to create an ideal setting for campers in grades kindergarten to 10th, to grow into citizens of the world, with a respect for all cultures and environments and the desire to engage with their communities.

At NWDC we will...

- Promote social skills and positive self-image through group play and cooperative learning.
- Develop activities that encourage cognitive growth, problem-solving skills, and development of physical motor skills.
- Encourage problem-solving and reflection by asking open-ended questions and providing information in response to children's ideas, insights, and concerns.
- Provide a supportive and safe learning environment to encourage discovery, questioning, and experimentation.
- Cultivate emotional literacy and empathy to develop self-esteem.
- Nurture self-expression, creativity, and reflection.
- Celebrate the diversity of all living things and the individuality of children and families.
- Instill respect and appreciation for the natural world.

It is our business to care for your child. To do this properly, we must work together. It is important that you familiarize yourself with the NWDC's Policies and Procedures for the Summer Day and Overnight Camp Programs. Your cooperation and understanding are essential for our quality programs to run effortlessly.

Please take the time to read the following material carefully. Thank you!

DROP-OFF AND PICK-UP

Colorado State Licensing services require that your child be accompanied during the drop-off and pick-up process to the program by an authorized adult.

- The authorized person **MUST** sign the participant in and out every day.
- No one under the age of 18 is allowed to sign a child in or out of the program.
- Program staff are not allowed to be authorized pick-up persons.
- Children will only be released to those listed on the “authorized pick up” form. You may be asked for your ID when you pick up a child.
- Unauthorized individuals will not be allowed to have children released to them.

If you arrive late to Drop-off, Please call the office at 719-485-4444 as soon as you can to let them know you are late but coming. Once there, go to the office to have them find your child’s group. You must wait with your child until they are reunited with their group and you sign them in. If your child is signed up for an overnight camp that is at an offsite location (i.e Mission: Wolf) and you arrive after they have departed, we will do what we can to reunite the group so long as it is not going to negatively impact the camp experience of the other participants.

LATE PICK-UP

If a child is not picked up from the program 15 minutes past the scheduled pick-up time, camp staff will attempt to call parents/guardians and emergency contacts. If you are aware that you are going to be late, please call the camp staff and notify them.

- NWDC will charge a fee of \$15 for every 15 minutes after the first 15 minutes.
 - i.e.: If pick-up is at 3:00, parent/guardian will be charged \$15 if the camper is picked up later than 3:15 pm, and another \$15 after 3:30 pm.
- This charge must be paid before the child returns to the program.
- If camp staff have been unable to make contact with the child’s parent/guardian or emergency contacts, we after 1 hour will contact the police department and the child will be released to them.

Camp staff will remain at NWDC until all children are picked up by a guardian or turned over to the police department.

UNAUTHORIZED PICK-UP

UNAUTHORIZED CHILD PICK-UP POLICY STATES ANY PERSON ATTEMPTING TO PICK UP A CHILD ENROLLED IN OUR PROGRAM MUST BE ON THE CHILD’S AUTHORIZATION/EMERGENCY FORM OR HAS TO BE SUBMITTED IN WRITING ON AN AUTHORIZATION REQUEST FORM. A CHILD WILL NOT BE RELEASED TO ANY ADULT WHO IS NOT LISTED ON THE AUTHORIZATION FORM.

GUIDANCE & PROCEDURES

We promote peaceful conflict resolution and encourage children to learn, problem-solve, and make positive choices on their own. We strive to create an environment where children are safe and where they know they will be cared for and listened to, not just by NWDC Staff, but by one another as well.

To minimize conflict, much effort is taken to provide:

- Appropriate activities
- Create an inviting environment
- Meet the individual needs of children

Still, conflicts are a natural occurrence as children try to relate to one another in a group setting. Many techniques are used for assisting children through conflict resolution. Although our interactions vary depending on the age of the children and the severity of the situation, all means seek to guide children as problem solvers.

The following techniques are used regularly by our staff:

- **Identifying/Interpreting-** "You both want the truck." Such a simple statement can clarify the problem, diffuse tension, and help the problem-solving begin. Children also need help to consider other's emotions or needs especially when they are upset themselves. For example, "Look, he is crying. It hurt when you kicked him."
- **Validating Feelings-** Constructive thinking is virtually impossible when a child is overcome by an emotion such as anger, sadness, fear, or frustration. Acknowledging the emotion is imperative before any other learning can occur. "I will not let you hit her. Tell me why you are so angry." All children in a conflict must be honestly listened to. Children are not told to say "I'm sorry," but rather, to actively comfort or offer help to the child they hurt/upset. Adults may say, "I'm sorry you got hurt" and at some point, children will spontaneously do the same.
- **Giving Choices/Offering solutions-** Adults offer choices and possible solutions to children who are having a difficult time finding them on their own. Some options given are negotiating and collaboration.
- **Redirection-** A request to stop a negative behavior is accompanied by a suggestion for an appropriate behavior with which to replace it..."You may not throw rocks, if you'd like you may stack them or make a wall."
- **Natural Consequences-** Consequences for behavior are those that are logical to children. "If you are not able to stop throwing the sand, then you will need to come out of the sandbox." When children can understand the results of their behavior they are better able to modify it.
- **Limit Setting-** For children to build trusting relationships and feel confident to explore, they must know what is expected of them. Rules are kept few, basic, clear, and concise. Boundaries and expectations expand in keeping with the abilities of the children.
- **Consistency-** So that children know what to expect (and from that can anticipate, predict, and change their behavior accordingly), limits and expectations are consistent throughout the classrooms. All adults respond consistently to conflict situations.
- **Tone-** The message a child receives from an adult intervening is: you are safe, the situation is under control, and we can work it out. A firm, kind, serious tone with a relaxed demeanor reinforces this message.
- **Modeling-** The adults in the center set an example of compassionate, caring individuals who can express their feelings and needs clearly and calmly.
- **Passive Intervention-** Children are given time to work through their problems. If a situation does not escalate to destructive or aggressive behavior, staff may choose to simply observe as the children seek a solution, or their presence can serve as a gentle reminder to use words instead of action. Staff trust children to 'figure it out' but are there to help if they should need it. When additional intervention is necessary to facilitate the resolution process, it is as non-intrusive as possible.
- **Physical Intervention-** Children will be physically stopped when hurting each other. The focus will then turn to resolving the conflict at hand.

BEHAVIORAL AND DISCIPLINE POLICIES & PROCEDURES

If a child needs time to calm down, staff facilitate this in a non-punitive manner by helping children find a way to calm themselves. For our older participants, they are offered a chance to take space if they need it. Space is always taken within view of the group, and is a choice that the individual makes, they also decide when they would like to come back to the group. If a child has taken space for more than 5 minutes and has not come back on their own, a staff member will go over to them and check on them.

To provide a fun and safe environment for your child while participating in summer programming, the following discipline procedures have been established for misbehavior:

- Step 1 – A staff will attempt to resolve the misbehavior by utilizing some of the steps above.
- Step 2 – Staff will conduct a report in written form explaining the unacceptable behavior.
- Step 3 – A second report is written and parents/guardians are notified of their child's performance.
- Step 4 – Parents/guardians will be called and asked to pick their child up from the program.

If at any point an NWDC staff member or a child's parents/guardians decide that the child should be withdrawn from the program the Program Director will be involved with notifying all the necessary parties.

*While NWDC staff will do all they can to resolve any conflict and or misbehavior, we reserve the right to suspend or remove any child at any time for situations that involve fighting, hitting, threatening, stealing, equipment abuse, or carrying weapons. The parent/guardian will be notified immediately. If your child is suspended or removed from our program, there are no refunds.

IMPORTANT HEALTH FORMS AND POLICIES

Colorado State Licensing requires that every participant must have the following completed forms on file at the program location by or on the first day of the program. All of these forms are included in the “NWDC Summer Camp Required Forms Packet”.

- Authorization and Emergency Information
 - Current Medical Information and Immunization Records from your child’s primary health care provider.
 - Immunization-exempt children may be allowed into the program; Parents/Guardians must submit supplemental documentation to the program director that is signed by an authorized provider. Please contact the Program Director if this applies to your child. In the occurrence of a communicable disease outbreak, the child may be requested not to attend the program during the contagious time.
 - An additional health history completed by a parent/ guardian is requested to help Ranger staff become better acquainted with your child.
 - Additional liability waivers and permission slips depending on the camp your child is signed up for
 - Forms **MUST** be complete. A child with incomplete forms will not be permitted into the program.
- *A first aid kit will be kept on site with each lead ranger staff carrying their travel kit.

DAILY HEALTH EVALUATION

- During check-in, staff will perform a head temperature check. This check considers the health and safety of all campers. If any health concerns arise, the camper will be sent home for treatment. Campers are welcome to return when the health concerns are addressed. For more serious cases (i.e. severe illness) Campers will not be readmitted to camp without a note from a physician.
- Should your child become ill at camp, your child will be supervised in the office, to minimize exposure to well children. We will call you immediately, and your child will need to be taken home by you or someone on your authorized pick-up list within one hour of the call.
- If there is a disagreement with the center's decision to send the child home, the parents/guardians will need verification from a physician stating that the child is not contagious and is well enough to take part in the program.
- Staff appreciate knowing if your child is undergoing any unusual or traumatic experiences that might affect their behavior at camp. This information allows staff to better meet the needs of your child during camp hours.

CHILD ILLNESS, ACCIDENTS, AND INJURIES

In the event of a participant's illness, accident, or injury, a parent/guardian will be contacted to pick up their child while the child is made comfortable and isolated from the other campers.

To protect the health of children, families, and staff, NWDC adheres to the following policies.

Children will be sent home from camp if:

- They have a temperature of 101 or above.
- They have three loose stools or more during the day OR diarrhea is causing "accidents" for toilet-trained children.
- They vomit once (and it was not caused by coughing, crying, or motion).
- They are suspected to have a contagious illness due to symptoms such as rash, (which may include blisters, raised bumps, or lesions), sore throat, or red/discharging eyes).
- They are not well enough to participate in all aspects of the day.
- If the child visits a doctor we require that they only return to the program with written permission from their medical provider.
- If a child requires medical attention while on a trip/excursion parents/guardians will be notified immediately.

Please notify the center immediately if your child has a contagious illness such as strep throat, pinworms, impetigo, conjunctivitis, measles, mumps, whooping cough, staph infection, chicken pox, hand, foot and mouth disease, or head lice. We will notify all parents/guardians if children have been exposed to a contagious illness while at the center (keeping the name of the ill child confidential).
